The spirit

In a spirit of solidarity, this experience offers you magical moments in the Douz Oasis, but that's not

all! You have the opportunity to experience the daily life of the date season with the farmers. They welcome you with joy and good humor and invite you to take part in this exceptional season, which is so important for the local economy. The date season is the most important in the agricultural calendar of the entire southern region.

The experiment is also part of a sustainable spirit, and aims to help local people preserve their trades and the know-how of the date culture.

We've got you covered...

Arrival in Douz and welcome by our guide. After a presentation of the experience, we set off in a 4x4 to discover the oasis and palm grove. After this orientation tour, we enter the palm grove to meet the farmers. During this period, the palm grove resembles a beehive. Some climb the palm trees, others bring back dates for sorting.

After a glass of Saharan tea, you're invited to join in the harvesting of Tunisia's juiciest dates. The more athletic can of course climb the palm trees to collect the date branches, with the help of the

farmers.

In a friendly atmosphere, they'll explain the harvesting stages, date varieties and how to store and transport them.

After harvesting, you taste the fresh dates and enjoy their unique tastes and flavors, before watching a demonstration of how to prepare and bake the galette des sables. A special moment in which you can see how Bedouins adapt to their environment.

After lunch, end of experience and departure.
